Member Benefits!
There are many benefits to being in the union: from representation and legal assistance, to discounts at many local businesses. Here, we will highlight one of your benefits each month!

NEA wireless is providing teachers with a 15% monthly discount on their AT&T cell phone services.

To claim your discount visit the CTA Members Discount website click here.

A Note From Our President
While it seems like time is flying by and standing still at the same time, we are heading into second quarter. With family conferences, progress reports, and assessments in full swing, I know our time is precious and you are working incredibly hard to meet these deadlines. With that being said, what are you doing to make sure you are taking care of your physical and mental health? Remember, self-care isn’t always bubble baths and spa days. Ensuring that you are staying hydrated, eating something green, and setting a bedtime routine are little things that pack a big punch! - Lauren Mauck

Member of the Month
Stephanie Bemboom- Member since 2011
Ord Terrace Elementary- TK/Kinder
Likes: Gardening  Dislikes: Cilantro

“The best part about teaching littles is they never have to grow up and can always be silly. I value the union because it gives teachers a voice that must be heard and it strengthens my abilities to do my job effectively with love.”

If you’d like to nominate a MBTA member please send your nominations to MBTAhelp@gmail.com. MBTA Member of the Month will be awarded a $10 gift card.

Ask Our Members!
Answer our monthly question to be included in our raffle to win a $10 gift card (open to current MBTA members only).

On Tuesday, October 13th, our President Lauren Mauck presented the results of our recent survey to The Board of Education (see results here).

After discussing our teachers’ significant workloads and stress levels, Board Member Amanda Whitmire asked, “What do our teachers need?” Tell us what YOU need. What should the Board and/or district do to support our teachers through these unprecedented times?
